For Immediate Release: Basic American Medical Products Announces Major Facility Expansion

October 31, 2011 • Atlanta, GA:

Basic American Medical Products®, a GF Health Products, Inc. factory brand, has announced a major expansion that will add 40,000 square feet of manufacturing space to its Fond du Lac, Wisconsin facility. Said Kurt Hellman, Senior Vice President of Manufacturing, “As an integral part of our ***Made In the USA Strategic Initiative***, this expansion will allow us to manufacture our products more efficiently, making us even more competitive. We are committed to manufacturing as many of our products as possible here in the United States. We recently constructed a new facility in Atlanta, Georgia to manufacture our line of Lumex® Specialty Seating Products, and this significant investment in our Fond du Lac, Wisconsin facility demonstrates our continued commitment to creating jobs locally and manufacturing in the United States.”

By utilizing existing and new manufacturing facilities where they can in the United States, Graham-Field takes advantage of streamlined logistics and the qualified, enterprising U.S. workforce to provide the highest quality products at the right price. Graham-Field’s in-house engineering, manufacturing expertise, and well-placed distribution centers allow it to initiate an aggressive manufacturing, assembly, and distribution program here in the United States while remaining competitive in today’s global market.

“Helping to make this project reality is the support of Fond du Lac County, the City of Fond du Lac, and the great work of the Fond du Lac County Economic Development Corporation,” added Hellman. GF Health Products, Inc. has retained Keller Planners, Architects and Builders to design and build the new 40,000 square foot warehouse and manufacturing addition.

Formally operating as Basic American Metal Products, Basic American Medical Products is one of the largest manufacturers of healthcare beds in the world. The company has occupied the existing site (shown above) at 336 Trowbridge Drive in Fond du Lac, Wisconsin, since 1992. Learn more at www.bampwi.com.

GF Health Products, Inc. (“Graham-Field”), headquartered in Atlanta, Georgia, is a major manufacturer and distributor of healthcare products for the homecare, long term care, primary care, and acute care markets.
