**For Immediate Release:
Graham-Field Introduces Patient Alarms**

March 1, 2006 • Atlanta, GA:

Graham-Field Health Products is pleased to introduce a versatile suite of patient alarms. These practical aids will help cope with worries about patient wandering. All of these alarms feature an ON/OFF switch, audio alarm with dual volume adjustment, and battery operation.

The **Patient Alarm for Bed and Chair** is available in two sizes, suitable for either bed or chair. The alarm, connected to a sensor pad, is activated when the patient gets up from the bed or chair.

The **Patient Alarm with Pull Cord** attaches to bed or chair with a self-contained clip. The alarm is activated when the pin connector is pulled from the unit.

The **Patient Alarm with Magnetic Pull Cord** attaches to bed or chair with a self-contained clip and adjustable cord. The alarm is activated when the magnetic pull switch is removed from the unit.

The Graham-Field patient alarms join an outstanding family of patient room products including trapezes, IV stands, hampers, footstools, and overbed tables. As part of their campaign to keep patients safe, Graham-Field has also recently introduced a homecare low bed.

GF Health Products, Inc., headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care and acute care markets. Its products include patient room products, homecare and long-term care beds, respiratory products, manual and power wheelchairs, patient aids, diagnostics and specialty seating products.
