For Immediate Release:

Graham-Field Introduces the Lumex® Homecare Low Universal Half Rail

November 1, 2006 • Atlanta, GA:

Graham-Field Health Products is pleased to introduce the **Lumex Low Universal Half Rail**, its latest endeavor to enhance the lives of home patients and their caregivers. The rail, shown here, assembles quickly and easily without tools. Either side can be placed in the up position to define the edge of the bed space, or the down position to enable patient mobility and linen change. The Low Universal Half Rail was designed for use on homecare beds that adjust to a very low height, but can also be used on standard homecare beds. The Low Universal Half Rail conforms to current FDA safety guidelines and medical equipment safety standards. It meets the requirements of HCPCS code E0305, and includes a three-year warranty.

GF Health Products, Inc., headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care, and acute care markets. Its products include homecare and long-term care beds and bed accessories, pressure management products, respiratory products, patient room products, patient aids, diagnostics, manual and power wheelchairs, and specialty seating products.

Graham-Field has manufacturing facilities located in Fond du Lac, WI; Central Falls, RI; Indonesia; Taiwan; and China. Graham-Field's name brand products include Lumex, John Bunn, Basic American Medical Products, Everest & Jennings, Grafcu, and Labtron.

GF, Graham-Field, and Lumex are registered trademarks of GF Health Products, Inc.
