For Immediate Release: Graham-Field introduces Lumex® *Fast Alert* Patient Alarms
February 24, 2011 • Atlanta, GA:

GF Health Products, Inc. ("Graham-Field") is pleased to introduce the Lumex® *Fast Alert* Patient Alarm series, shown below.

**GF13700
on wheelchair**

**wheelchair pressure
sensor pad**

**GF13701 with bed
pressure sensor pad**

**GF13702 with wheelchair
pressure sensor pad**

Fast Alert Patient Alarms notify staff or caregiver that a user has moved. Powered by only one 9V battery (not included), these units are designed to alarm for patient safety when used on a chair or bed. Each features an attached clip, dual volume settings (70dB or 90dB), and is backed by a one-year limited warranty.

The GF13700 features an alligator clip that attaches to the user's clothing. When the user gets up, the cord, adjustable from 17" to 31", pulls from the alarm and activates the audio alarm. The GF13701 and GF13702 feature a 0 or 2 second delay function for restless users, protective boot to prevent damage if dropped, off switch, and low battery indicator. Designed to be used with a wheelchair or bed pressure sensor pad (shown above), the alarm activates when the user gets up from the wheelchair or bed. The GF13702 also features a remote alarm option that allows the caregiver to silence the local alarm and sound the alarm remotely through the nurse call system (adapter cable and splitter sold separately).

GF Health Products, Inc., headquartered in Atlanta, Georgia, is a major manufacturer and distributor of healthcare products for the homecare, long term care, primary care, and acute care markets. Its products include manual and power wheelchairs, specialty seating, respiratory products, long term care and homecare beds, patient room products, diagnostics, and medical/surgical products.
