For Immediate Release:

Graham-Field Introduces the Lumex® Patriot™ Liberty FDA-Compliant Bed Rail Line

February 1, 2010 • Atlanta, GA:

Graham-Field is proud to introduce the **Liberty** line of **FDA-Compliant Bed Rails**. These new bed rail systems, developed using the **FDA Hospital Bed System Dimensional Guidance to Reduce Entrapment** and tested to the **Hospital Bed Safety Workgroup and FDA Dimensional Test Methods for Bed System Zones 1-4** and **International Standard IEC60601-2-38 Requirements for the Safety of Electrically Operated Hospital Beds**, offer added protection and reduce the risk of entrapment.

Standard features include:

- Improved rail design that decreases the spacing between the crossbars, thus reducing the risk of entrapment
- New rail length that closes open areas that can occur during full bed articulation
- Rails that now mount in fixed *patent pending* rail slots on Patriot™ bed deck to prevent sliding and moving — easy installation saves delivery and setup time and ensures proper rail placement
- Spring-loaded, self-adjusting crossbraces with stabilizers and anti-slide tabs to prevent accidental disengagement when bumped or during application of side pressure
- Heavy-duty steel construction powder-coated with an environmentally-friendly, long-lasting hammertone finish and secure gripping surface

Rail-Mount Slot

Hammertone Finish

The **Assist Bar (GF6500B-1)**, a true assist device designed exclusively for the Patriot™ bed, is bolted directly to either side of the bed frame.

The **Quarter Rail (GF6580B-1)**, approximately 18 inches in length when mounted on the Patriot™ bed, can be used as a head assist, head rail, or foot rail.

The **Half No-Gap Head Rail (GF6590B-1)** extends to eliminate the gap between the head board and the rail's head end. Its non-telescoping tube overlap creates a very sturdy rail that can be used as a secondary handle and support.

The **Full Length Rail (GF6570B-1)**, a minimally-telescoping full-length rail, provides maximum-length rail perimeter coverage.
