**For Immediate Release:**

**Graham-Field Introduces the Lumex® Whisperlite™ II Homecare Low Bed**

**February 20, 2006 • Atlanta, GA:**

Graham Field Health Products is pleased to introduce the new Lumex Whisperlite II Low Bed, the latest addition to Graham-Field's extensive line of homecare beds.

The Whisperlite II Low Bed, shown here, offers safety features that caregivers will welcome. With a low bed height of only 9 1/2 inches, injuries from falling out of bed will no longer be as great a concern. The casters engage at the lowest position to enable bed movement, but disengage when the bed is elevated to prevent unsafe movement.

And versatility! This multi-talented bed adjusts to 20 inches at its highest setting, providing more than 10 inches of easy height adjustment. With a mere swap of the bed ends, customers can change from a full-electric standard-height bed to a full-electric low bed. Maximum weight capacity is 450 lbs.

The Lumex Whisperlite II Low Bed joins an outstanding family of homecare beds: All Whisperlite II beds feature easy set-up and disassembly; quiet, strong motors; and simple height adjustment. As well, Graham-Field offers a complete line of long-term care beds and a full line of bed accessories.

GF Health Products, Inc., headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care and acute care markets. Its products include homecare and long-term care beds, respiratory products, manual and power wheelchairs, patient aids, diagnostics and specialty seating products.
