For Immediate Release:

Graham-Field Introduces Labtron® Dual-Frequency Stethoscopes

July 16, 2007 • Atlanta, GA:

Graham-Field Health Products is proud to introduce two new **Dual-Frequency Stethoscopes** by **Labtron**, the gold standard of diagnostics.

Both stethoscopes, shown at right, feature a single-sided chestpiece with dual-frequency diaphragm: Skin contact only provides low frequency response, much like a dual-sided bell chestpiece, while firm pressure enables high-frequency diaphragm response. Other features include a comfortable, non-chill ring; lightweight binaurals with internal spring; and deluxe eartips. Lifetime warranty.

The **Professional Dual-Frequency Stethoscope (430)** features 22" latex-free Y-tubing.

The **Cardiology Dual-Frequency Stethoscope (435)** features 19" latex-free, extra thick Y-tubing for outside noise reduction.

Graham-Field Health Products, headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care, primary care and acute care markets. Its products include diagnostics, medical/surgical products, patient room products, homecare and long-term care beds, respiratory products, manual and power wheelchairs, and specialty seating products.

Graham-Field Health Products has manufacturing facilities located in Fond du Lac, WI; Central Falls, RI; Indonesia, Taiwan and China. Graham-Field Health Products' name brand products include Labtron, Grafcó, John Bunn, Lumex, and Everest & Jennings.

GF, Graham-Field, Labtron, Grafcó, John Bunn, Lumex, and Everest & Jennings are registered trademarks of GF Health Products, Inc.
